

RU-BER-OID
contains no Tar,
Asphalt, Sand,
Wood or Paper.

Asphalt makes a good pavement but a poor roofing. Like coal tar it melts and runs in hot weather and cracks in cold weather. Sand, gravel and flint add nothing to the wear of a roof, and roll off with exposure to the weather. Wood fibre and paper stock, used in many roofings, rot quickly. We can supply you with a roofing that is made exclusively of tough, heavy felt, waterproofed with a compound which cannot melt, crack, break or rot. This roofing is

RU-BER-OID
ROOFING
COSTS MORE - WEARS LONGER

It costs more than tar, asphalt, and sand-surfaced roofings, but it is cheaper by the year, because it lasts much longer. **RU-BER-OID** roofs put on more than 20 years ago are still watertight and look right.

We know that **RU-BER-OID** will give you lasting satisfaction. Low-grade roofings might be watertight for a while, but **RU-BER-OID** is permanently weather-proof. Come in and get our prices.

Bronchitis

"There is no disease that should cause more anxiety in the home than Bronchitis, for if neglected in the earlier stages it often becomes chronic and may even prove fatal.

Chamberlain's Cough Remedy is the medicine for this disease, and if given in regular doses will relieve the cough, ease the pain, remove the difficulty in breathing and produce a free and easy expectoration, thus reducing the inflammation.

Old people, and those who have weak lungs, cannot be too careful in guarding against this disease.

Chamberlain's Cough Remedy
strengthens the throat and lungs and makes them less susceptible to changes of the atmosphere. In fact, the use of Chamberlain's Cough Remedy will prevent an attack of Bronchitis becoming chronic."

Yours for Health - Granj Chamberlain

A HAPPY DREAM HAS COME TRUE

Sufferers from Stomach Trouble Have Discovered a Relief.

To be a sufferer from stomach trouble for years and to bear all the torments that this all too common ailment causes, and then to be benefited almost overnight, is like having a happy dream come true.

This has been the pleasant experience of thousands of former sufferers of this dreaded malady, who have taken Tanlac, the new reconstructive tonic, which aids nature to restore the stomach to the habit of doing a full day's work and doing it well.

The present day mode of living has raised havoc with stomachs. A tired, overworked stomach or kidneys, abused by too much or too hastily eaten food, and our other faulty methods of living, cause an endless number of ailments, among them being liver complaints, kidney trouble, catarrhal affections, dyspepsia, nervous breakdown, lost ambition and blood troubles.

People so affected, and there are thousands of them in cities like Wauseon, Ohio, are lousy and nervous and easily tired. They are worn out after a little exertion, and are moody and depressed. These are sure symptoms of overworked vital organs, which need cleansing out and regulating. It is just these conditions that Tanlac has proven beneficial.

Men and women in all walks of life are daily acknowledging the benefits derived from this Master Medicine. Tanlac has become a household word everywhere it has been introduced. Its records for sales has by far exceeded those of any other proprietary preparation ever known in the annals of medicine. Its success is based on merit alone. Its best advertiser is the former sufferer who has been relieved. The laboratories are working day and night to supply the great demand, which has been created by Tanlac throughout the country. Its instant leap into popularity in this section has been marvelous.

Nervous, tired out, run-down men and women, or those suffering from stomach, kidney, liver, intestinal or catarrhal troubles should visit Fink & Haumesser's Drug Store, where the Tanlac Man will explain the merits of this wonderful reconstructive tonic and the results that may be expected from its use.

Tanlac may be obtained in Fayette, at the King Drug Store; Bryan, at the Tanlac Drug Co.; Napoleon, J. S. Schaff.

At a Standstill.
Mr. Henry Clay Plancher, an Afro-American of deepest ebony hue, lay very ill. The mistress of the plantation called to ascertain his condition. "How is your husband this morning, Marinda?" she asked. "Mis' Jane, dey hain't no improvement one way or de yudder."

For galls use Hanford's Balsam without stopping work.

SALOON BUSINESS NOT PROSPEROUS

Many Ohio Liquor Licenses Are Going Begging.

WATER WAGON IS POPULAR

Similar Conditions Prevail Over the Country and the Slump in the Consumption of Liquors as a Beverage Tells the Story—Decrease in Value of Saloon Licenses in Chicago Estimated at \$18,000,000.

Columbus, O., (Special.)—"While prosperity seems to have come to the country, it has not touched the saloonkeepers as a class," said a Columbus man who spends considerable time in the liquor joints of the capital city.

"I know possibly a half dozen saloonkeepers here who are making some money," he continued, "but aside from these I can not name others who are making more than a bare living, while the great majority are merely existing, hoping against hope that conditions will change for the better."

This gentleman, in explaining the hard times among saloon men, pointed to the fact that a half hundred or more saloon licenses in Columbus are not working, as nobody wants to engage in the business. Many of the saloons have cut down the number of their employees because the trade is so poor they are not justified in retaining them. One wholesale and retail establishment dismissed its high-priced manager because trade was so poor it did not justify his retention.

"There is one thing which used to be quite common in saloons, but which you now seldom see," said the man quoted above. "Quite frequently a man would enter a saloon, and whether he knew the lotterers or not, would invite everybody to drink with him. This would start business and frequently there would be six or eight rounds of drinks. I have seen this but once in Columbus saloons in the past year. General treating is not customary any more and this one fact means a big slump in sales."

Similar conditions are reported from other Ohio cities and from all over the country. In the big wet centers of Ohio there are fewer liquor licenses than these wet communities are entitled to. Saloon men are selling out if they can find buyers, and it is not unusual for a saloonkeeper to quit business voluntarily, while bankruptcy proceedings involving liquor dealers are not uncommon.

To show this condition prevails elsewhere, the Chicago Journal reports in that city liquor licenses for twelve months ago sold at a premium as high as \$3,000. This bonus has dropped to \$100. The Journal says the slump in value of licenses in that city will aggregate \$18,000,000.

There is an ever increasing number of men who are on the water wagon and who do not go into saloons. Many who formerly drank have cut it out and the young men well know it is a hindrance and not a help to be known as a patron of the saloon.

All this is having its effect on the consumption of liquor, as shown by the revenue reports for the twelve months of 1915. Records of Uncle Sam show that during the twelve months there was a decrease in the consumption of beer as compared with the twelve months of 1914 of \$2,238,328 barrels. The decrease in 1914 as compared with 1913 was \$2,125,159 barrels. This means a decrease of 9,056,846 barrels in 1915 as compared with 1913.

OUR PUBLIC FORUM

Frank Trumbull
ON UNIFICATION OF RAILROAD JURISDICTION.

There is no more perplexing problem in government today than the proper regulation of railroads, and no one more capable of discussing the subject than those who finance and manage railroad properties, for experience is the handmaiden of understanding and practical wisdom the stepping stone to success.

Frank Trumbull, Chairman of the Railroad Executive Advisory Committee on Federal Relations, when asked for his views on the effect of regulation upon railroad investments, said in part:

"The desirability of regulation is, of course, admitted. Whether the regulation the railroads have had is a success is a fair subject for discussion. One thing is certain—there is at present practically no appetite for fresh investment in railroads; that is for new construction or large improvements.

"Now that an efficient banking system has been established by the Federal government, a solution of the railway problem, fair alike to investors and to the rest of the public, is first in importance among our national domestic questions. The interdependence of railway owners and employees and of the shipping and traveling public has been demonstrated so often that I do not attempt here to prove it over again.

"Are railroad managers entirely to blame? Suppose you are attempting to administer a railroad in an honest and straightforward way. Most railroads are so managed; there have been some exceptions, just as there have been wicked bankers, farmers who put their best apples in the top of the barrel, and other people who have made sharp horse trades. But in either of the cases mentioned, does anyone expect the State to penalize the banking business as a whole or the apple business or the raising of horses?

"The situation is much as if you had built a hotel in some good sized town, say, twenty or thirty years ago. Probably very few, if any, of the bedrooms were provided with bathrooms. Perhaps the furniture consisted of a bed, a bureau, a wash-stand and two or three chairs. Suppose that after investing your money in that way the State passed a law stipulating that the price per room should not be over two dollars per day. Suppose after that the State passed other laws requiring a certain number of bath rooms, additional furnishings, fire escapes, screens on all the windows, sanitary appliances, etc. Perhaps these requirements are reasonable and in the public interest, but where would you get the money for new and better hotels under such restrictions of profits? I have said that the situation of the railroads is much like that, but the hotel investment is simplicity itself as compared with investing in a railroad."
